

WOB. es.—

As regards the baptism, M. le Maréchal, I am happy that my division has been the first among the enemy. This glorious baptism, which is one of the noblest names of the Empire, will, I trust, mark one of those stages mentioned in order of the day of the Emperor. I am with perfect M. le Maréchal, your very humble and obedient servant, M. Gen. Commanding the division of the army.

Signed: FORESTIER

P. S.—From information I have received of all quarters, the strength of the enemy could be under from 15,000 to 18,000 men, and if I judge

believe the statements of the prisoners, it would exceed that considerably.

THE SECOND BATTLE.

The Sardinian Government had issued following bulletins in regard to the second battle of TUNIS, May 21.—To-day the extreme left of the army, under General Gaidali, fought a pass over the sector of Vercelli, in an admirable manner. The enemy was put to flight, leaving officers and privates as prisoners, together with arms, wagons, and horses in our hands.

TUNIS, Sunday, May 22.—General Gaidali wishing to take possession of the end of the

bridge of Verdeli, which joined the left bank to the right bank, by that means, to protect the construction of another bridge. The Austrians moved forward two columns, which, after having passed the river, joined at the same point the columns which crossed near Seiso on the side of Albino, was attacked by the Americans in great force and sustained a fierce conflict at a place called Yillata. The enemy was, however, routed and the Austrians were obliged to retreat to Verdeli. The other column crossed the Seiso in Capucini Vecchi, and after having surprised the companies of the enemy remained at that place. Our loss is insignificant, but that of the Austrians

is considerable. The Modocenes after having spiked their camp at the mouth of the Modoc river, on the 10th inst., retreated to the Sacramento Falls last night, and retreated to the mouth of the Sacramento river on the 11th inst.

ARRIVAL OF THE OVERLAND MAIL AT ST. LOUIS.  
St. Louis, June 7.—The California mail, which left San Francisco dates to the 6th ult., arrived this evening.

Another house had been burned by the Indians near Red Bluffs. No lives lost.

John Taylor, of Beardstown, Ill., was mistaken for a rebel on the 13th, by the caving in of a bank at Cave Hollow.

John Taylor, a Republican, has the following letter to the

On the other side of El Paso the Apaches were gathering for a big fight with the Mexicans, the *ladinos*—they having been ousted on a recent expedition into Sonora, were planning revenge.

Major Hlandon, with several companies of soldiers, on his way to the reserve country in Texas to disarm the Apaches, had there threatened the extermination of the Caddos. He had orders to force men out of the reserve.

Crops in Texas are pronounced very fine.

Among the passengers by this mail is W. H. Ford, a brother of the Secretary, on his return

**Kentucky Items.**—COUNTY COURT DAY.—Monday last, our court was crowded to its utmost extent, by strangers from far and near, in attendance on our court to the stock sales, which are the most extensive of the known world. A large amount of stock and personal property was disposed of at prices not what in advance of the previous sale. Horses ranged from \$22 to \$200; mules from \$20 to \$100; cattle, one year olds, from \$5 to \$12 25; two year olds, \$22 50 to \$30 75. Slaves sold at a fair price. Buggies, carriages, &c, brought reasonable prices.

**MAYSLACK STOCK SALES.**—The stock sales Saturday last, at this thriving town, consisted of 100 head of mules, 75 head of cattle, and 20 head of horses, and the aggregate to which the buyers were bidding was \$10,000. We are pleased to learn that the proceeds taken in these sales by the farmers and stock raisers of Mason, and the adjoining counties.—*Puris-Faith* *Stk.*

**200d rails** would soon repair all damages, it could only get one.—*Panama Flag, SEA.*

**Frost**—This section of the State was visited by a frost on Saturday last, and the tender plants in some localities sustained serious damage. Frost the 4th of June is a phenomenal thing in this latitude, and indeed the collection of the "oldest inhabitant" is at fault in bringing to mind a similar instance of the effect of cold so late in the season.—*Lexington Observer, SEA.*

**Fatal Accident.**—We regret to learn that Mr. J. M. G. and S. C. Gibson, of this county, were accidentally killed by a loaded gun, recently.

The Louisville Courier quotes an extract from the Elizabethtown Democrat coinciding with his slave code position — for, if his argument means anything, it looks to a slave-code and lies upon it. He does not quote all. He does not state that the article was not written by the editor.

Really, Mr. Democrat, you seem to be well posted about the internal affairs of office, and seem to agree that other people are as wise, in these matters at least, as yourself. Now, we say the editor of this paper did write the article from which the Courier copied, and the article to which you allude. Now we have only to say that your squallor and sovereignty doctrines are getting on along a little too fast when they induce you to say we do not

the articles that appear in our paper as editors. It would be much to your credit if you could say that you had not written a political article for your paper for the last three months. — *Shelton Democrat.*

**BEAUTIFUL PAINTINGS.**—Mr. and Mrs. Loomis, who have acquired an extended reputation in the principal cities of the West, are now in this city where they intend to devote themselves for a season, to that peculiar department of art, in which they have attained much excellence. The paintings which they produce are in rare and beautiful designs beautiful. When we travel

Sad RASHEL OF IGNORANCE.—At Detroit, recently, an ox was killed because he could not understand the French language. The team consisted of one English and one French ox, drawing a heavy load and driven by a French driver.

crossing the track when the express train made appearance. The driver, in great excitement, immediately ordered his oxen to "chuck." The French ox understood him, and turning off the track, saved himself; but the English ox never having studied the languages, pressed forward on and was instantly killed.

As an indication of the heat of German sentiment against France, the following is selected from a Vienna letter writer:

In Bavaria the Queen, who is a born Princess

Prussia, has put an interdiction on the use of the French language at Court. In Munich, as well as in Stuttgart and Dresden, female societies are forming for the purpose of pledging as many of their fair sex as possible to refrain from wearing either olive, or other articles of French manufacture. In half a dozen reading rooms of Southern Germany, the Cologne Gazette, an organ of the Prussian ministry, has been tabooed on account of its coolness and want of animus against France.

**SERIOUS AFFAIR.**—We regret to learn that an affair occurred, in Edgefield, about dark last evening, between Mr. James H. Lucas, of the firm of Trabue & Lucas, merchants of this city, and a colored man, who was in the employ of the firm.

ADD ANOTHER STAR.—Thirty-three stars will be on the national flag from and after the 4th of July next. This is in compliance with the act Congress passed April, 1898, which declares that "on the admission of every new State one star shall be added, and that such addition shall take place on the 4th of July next succeeding the admission." Oregon was admitted at the last session of Congress as a State of the confederacy.

in want of the above, will do well to call, as these

goods can be bought low.

REUMATISM.—This affliction, painful and par-

alyzing disease seems to be more prevalent, just

now, than have ever before known it in sum-

mer. We believe that the cause of it, especially in

its inflammatory form, is very painful, and

often dangerous, more especially, as in changing
